OVERVIEW OF ENGLISH LANGUAGE LEARNER BEST PRACTICE

The Sheltered Instruction Observation Protocol (SIOP®) is a research-based and validated instructional model for lesson design and delivery that has proven effective in addressing the academic needs of English learners throughout the United States.

The SIOP® Model consists of eight interrelated components:

1. Lesson preparation
2. Building background
3. Comprehensible input
4. Strategies
5. Interaction
6. Practice/application
7. Lesson delivery
8. Review/assessment

Responses to Martina's workshops include "With this training I didn't have to change how I taught...I just had to rethink it for the ELL and Academic Language learners in my class. Thank you for an engaging, resourceful, and informational three days!"

Using instructional strategies connected to each of these components, teachers are able to design and deliver lessons that address the academic and linguistic needs of English learners.

WHO SHOULD ATTEND?

District and building administrators, curriculum leaders, teachers pre-K through secondary including early childhood, mainstream and specialist teachers (special education, EL, art, music, physical education), and anyone who works with English Language learners.
