

# Webinar Series

## MAKING CONTENT ACCESSIBLE FOR ELLS IN THE MATH CLASSROOM

MAY 1, 2018

3:00-4:00PM CST

### WEBINAR SERIES OVERVIEW:

As our EL populations continue to evolve, educators are tasked with the challenge of creating rigorous, yet welcoming environments for learners of linguistically and culturally diverse backgrounds. These webinars will address ways you can create a welcoming learning environment for ELs and make language and content accessible for learners from different educational backgrounds and proficiency levels.

### Participants will:

- List lesson elements that lead to maximum math and English learning and how to include them in math classes.

### Presenter:

**Jane Moren** has teaching licenses in both ESL and mathematics.

She has been teaching EL Basic Math to newcomers including SLIFE (Students with Limited or Interrupted Formal Education) for 14 years. She has developed curriculum that focuses on a deeper understanding of math concepts, while students develop English reading, writing, and speaking. She has also co-taught high school math classes.
