9700 France Ave S
Bloomington, 55431**

WHERE:

August 16 - **Normandale Community College**

Intermediate District 287, 1820 Xenium Lane N, Plymouth

August 21

Metro ECSU, 2 Pine Tree Drive, Anderson Center, Arden Hills

Prepare for infusing activities and routines that build number sense and algebra sense into your instruction for the coming year. Work with colleagues to create sets of activities for use through the first couple of months of the 2018 – 2019 school year. Explore how the virtual number sense and algebra courses created through the grant can support your work next year. The workshop is funded through Title II B dollars awarded to a collaborative of nine educational agencies.

Who should attend:

Teachers in grades K – 12 who are familiar with math talks or number sense routines

Grade level teams and PLCs working on improving math talks or number sense routines

Instructional Coaches or teacher leaders in grades K - 12

Teacher participants from partner districts (Osseo, Eden Prairie, Roseville, Northeast Metro 916 and Intermediate District 287) will be paid a **stipend of \$150**.

Teacher participants from non-partner districts are welcome to attend. Registration free!

Course Facilitators:

Christy Pettis, Math Instructor

University of Minnesota

Terry Wyberg, Math Instructor

University of Minnesota, Department of Education
