### Comprehensive Literacy Training Series

The Region 11 Literacy Community of Practice focuses on bringing more training opportunities to teachers and districts across MN, attempting to implement literacy with struggling readers. The overarching goal is to increase knowledge for those interested in literacy for students with low incidence disabilities (i.e., Developmental Cognitive Disabilities, Deaf/Hard of Hearing, Blind / Visually Impaired, etc.). This opportunity is the first within a series of short, basic trainings to provide resources and awareness of best practices in the field.

### Comprehension from Shared to Guided Reading

This presentation will review the components of an overarching literacy framework while going in-depth with resources and strategies specific to the area of comprehension. Students of all abilities need strong comprehension both in listening and reading in order to understand a text. The comprehension continuum begins with our most emergent students learning how

to communicate and engage to our most advanced students learning how to think critically to form ideas about what they read or hear.
