

STAR Online Learning System (SOLS) Workshops

Strategies for Teaching based on Autism Research

**June 15, 2021
3:00pm-4:00pm**

&

**June 18, 2021
10:00am-4:30pm**

Virtual Workshop Content

The STAR Online Learning System (SOLS) is designed to allow your school district to provide access to all students through remote learning opportunities. Through teacher facing, evidence-based lesson plans and a scope and sequence that provides scaffolded learning opportunities, teachers can provide their students individualized learning opportunities. The focus of the instruction uses the evidence-based practices appropriate for students with autism to teach skills in critical areas. This comprehensive workshop provides participants with detailed examples and practice activities on how to implement the evidence-based practices identified in the National Standards Report (2009) remotely using SOLS. Participants will learn how to implement these strategies through structured lesson plans and a curriculum scope and sequence. The workshop will include extensive data collection systems and practice with the on line learning system. Workshop topics will include the use of a power point lecture, video examples, presenter demonstration, participant "hands-on" practice in virtual breakout rooms.

Register for these virtual sessions:

Overview Session:

June 15, 2021

12:00pm - 3:00pm | [Click here to register!](#)

SOLS for the Classroom Trainings:

June 18, 2021

10:00am-11:30am: SOLS Overview | [Click here to register!](#)

1:00pm-2:30pm: Using SOLS Beyond Distance Learning | [Click here to register!](#)

3:00pm-4:30pm: Seamless Transitions | [Click here to register!](#)
