

The *Self & Match* System: Systematic Use of Self-Monitoring as a Behavioral Intervention: *Introductory Workshop*

August 4, 2022

8:00 am – 2:00 pm

In-Person - Arden Hills, MN

Registration Deadline: July 21, 2022

Cost: \$115 (includes book, shipping, training & lunch)

Register online: metroecsusystem.com/myquickreg

Description: This interactive and hands-on workshop provides an excellent opportunity for individuals to learn a well-defined, systematic self-monitoring intervention, and motivational system. Participants attending this workshop leave with a comprehensive tool in hand to implement immediately within the school, home, and clinic setting. This workshop explores peer-reviewed research that supports the implementation of self-monitoring systems for students of various ages and developmental levels. A discussion of self-monitoring procedures incorporating a "match" component is presented, with specific focus on *Self & Match*, a user-friendly, easy to implement, empirically-validated system. Participants in this training acquire a systematic guide to plan self-monitoring systems, as well as a *Self & Match* manual with substantial training materials. Additionally, participants strengthen their knowledge of necessary considerations prior to implementing any self-monitoring or motivational system.

The *Self & Match* system has been used internationally to support individuals with emotional behavior disorders, autism spectrum disorders, learning disabilities, as well as a variety of other diagnoses. *Self & Match* can be employed as a part of an individualized behavior system and/or a class-wide behavior management procedures and school-wide behavior management procedures as a part of SWPBIS. *Self & Match* has been applied in a diverse array of settings including special and general education settings, homes, communities, clinics, public and private schools, and recreational programs. Great workshop for individuals and/or teams!

Target Audience: Teachers, behavior analysts, consultants, school psychologists, autism specialists, special educators, administrators, parents, students, and/or others who primarily support individuals from K to 21. BACBA & General CEUs are offered.

Presenters: Jamie Salter, Ed.S., BCBA & Katharine Croce, Ed.D., BCBA-D

Jamie Salter, Ed.S., BCBA

In collaboration with Dr. Croce, Jamie S. Salter, Ed.S., BCBA authored the *Self & Match System*; an evidence-based self-monitoring intervention that is grounded in principles of Applied Behavior Analysis. Jamie currently supports teams around the globe in the development and implementation of *Self & Match* interventions as a Tier 1, 2, or 3 behavioral tool within the school, clinic, and home settings. Previously, Jamie served for a decade as a Senior Program Specialist at the San Diego County Office of Education. In her role, she trained educators on writing effective and legally-defensible Behavior Intervention Plans, provided leadership and guidance to special educators, consulted with teams utilizing the *Self & Match* system, and supported students, families, and IEP teams in determining appropriate programs for students in their least restrictive environment. Jamie received her Masters of Education, Educational Specialist degree, Nationally Certified School Psychologist status, and BCBA certification through Lehigh University. Jamie has been actively involved in supporting children with autism for over 15 years. These experiences include serving as Supervisor of an U.S. Department of Education Training Grant (focused on inclusion of students with low incidence disabilities) and presenter at multiple National Conferences.

Katharine Croce, Ed.D., BCBA-D

Dr. Katie Croce is a Board Certified Behavior Analyst-Doctoral. Katie received her Doctorate in Educational Leadership at Saint Joseph's University. Additionally, she holds a MS. Ed., in Applied Behavior Analysis, a BA in psychology, and an Autism Certificate. Katie has worked as a behavior analyst in public/private school and home settings for children with autism spectrum disorders (ASD) and other developmental disabilities. Katie's expertise includes behavior management, conducting functional behavioral assessments, graphing and analyzing data, developing individualized behavior intervention plans, staff training, providing parent education, and program development and management. Katie has also worked in a clinic setting developing programs for individuals with ASD including social skills programs, an inclusive summer camp, a respite program, a sports program, a college-bound retreat for students with ASD interested in attending college, a support program for college students with ASD, and training undergraduate and graduate education and psychology majors who wanted to work in the field of ASD. Additionally, Katie works in higher education developing and teaching undergraduate and graduate course work in autism spectrum disorders and applied behavior analysis.

This initiative is made possible in part with a grant from the Minnesota Department of Education using Federal funding CFDA 84.027A, Special Education - Grants to States. This conference does not necessarily represent the policy of the federal Department of Education or the state Department of Education; endorsement by the federal or state government should not be assumed.
