Workshop description: Working relationships with various school team members are foundational to success. By digging deeper into personalities, communication styles, knowledge sharing, and collaborative work interpreters can look inside of themselves to see what they can bring to the table as an expert in the field of educational interpreting. Working relationships are always evolving, and they require work from all involved to ensure the success of the Deaf and Hard of Hearing students that interpreters work with.

Presenter: Kallie Freel graduated from the University of Wisconsin-Milwaukee with a Bachelor of Science in Education: ASL Interpreting and ASL Studies. She recently obtained her Master of Arts in Interpreting Studies: Teaching Interpreting from Western Oregon University with a certificate in Educational Interpreting. Kallie interprets in a variety of settings, including K-12, post-secondary education, video relay service, and freelances as time allows. However, Kallie's full-time interpreting work in K-12 is where her passion for raising the standards and respect for K-12 educational interpreters has sprung from.
