12:30 – 3:30 The Visual Imagery Strategy - Strategic Instruction Model (SIM™)

Presented by: Marc Markell

The Visual Imagery Strategy is a reading comprehension strategy for creating mental movies of narrative passages. Students visualize the scenery, characters, and action and describe the scenes to themselves as they read each sentence in a passage. Students use the strategy to improve their understanding and recall of specific facts and sequences. The Visual Imagery Strategy is a part of the SIMs work previously known as Kansas Reading Strategies.
