

MN EBP/STAR Coaching Project is proud to offer

## **Setting up your Classroom for Success: Virtual Training in your Classroom!**

**August 17, 2023  
9:00 am- 3:00 pm**

---

**Presenter:** Jennifer Guettler, MN EBP Coach

**For:** Teachers and related service providers who would like create a positive, proactive classroom environment using evidence-based practices for autistic students. This training will benefit all grade level setting III classrooms and resource rooms.

**Prerequisites:** None

**Description:** This virtual training is designed to help special education teachers set up a positive, proactive classroom. It is an excellent next step for participants who attended the 2-day Initial STAR training or the 1-day initial Links training. Although this training will include setting up the classroom and using STAR/Links, those without STAR/Links training will find the same benefit. This training will consist of guidance, resources, and modeling on setting up a positive and proactive classroom, including room arrangement of needed areas, scheduling/schedules, visuals/routines, and tips for starting the year off strong. This training will be provided virtually to teams in their classrooms (if possible). During the training, teams will be given time to put their learning into practice using their classroom. Attendance of the special education teacher on the team is prioritized, but related service providers are encouraged. Other team members, including the coach and paras, will be helpful in developing a plan for your classroom for the upcoming school year.

### **Register Online:**
